WATCH PARTY FOR NEW YEAR'S EVE

Union Service for Tempe Churches Planned; All Pastors Join In

An inspiring and interesting watch party is planned for Friday night of this week to be held in the Methodist church by special invitation and to be participated in by all Christians in Tempe. All of the pastors resident here have been assigned places on the program. It is intended that every Christian, man, woman and child in Tempe, shall be enlisted in the service to the extent of being present and having a friend or friends along as guests. As it is the purpose of such services to develop personal consecration and to invoke God's presence with his people during the new year, the talks by the pastors will be limited to ten minutes and prayers by all will be stressed. The pastors of the evangelical churches have authorized the statement that they would appreciate and urge the membership and friends of their several churches to be present.

BOOSTER LITERATURE

The board of trade at a recent meeting assigned a number of committees to the work of planning an illustrative booklet of this district, to be used in advertising Tempe. It is planned to have each of the enterprises in the community to compile their data and then the matter will be combined into a neat little pamphlet for use by the board of trade secretary in forwarding an answer to letters asking concerning the Tempe country.

THE COLDEST DAY

The lowest temperature so far recorded this winter was on the 21st of this month when the mercury dropped to 26 degrees. Yesterday's coldest moment was at eight o'clock in the morning with the mercury standing at 31 degrees. The report of maximum and minimum temperatures for last week as recorded at the entomological laboratory is as follows:

Date	Max.	Min.
Dec. 20	73	31
Dec. 21	72	26
Dec. 22	65	31
Dec. 23	72	32
Dec. 24	75	32
Dec. 25	67	39
Dec. 26	70	44

MANY PEOPLE HEAR LECTURE

Christian Science Lecturer Draws a Good Crowd In Mesa. Many Seeking Knowledge Attend Meeting at Theater

Before a large audience, assembled in the Majestic theater last evening, Professor Hermann S. Hering, of S. B. Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, of Boston, Mass., delivered an interesting lecture on "The Science of Christian Healing."

Formerly at 8:15, the speaker was introduced by Mr. John G. Spangler, First Reader of the Christian Science Society of Mesa. In presenting Professor Hering to his audience, Mr. Spangler said:

"Friends: All people desire to know the truth. We read, study, and investigate, in order that we may determine that which is the truth. All intelligence or science is capable of demonstration, and we are seeking that intelligence which will solve our every-day problems. Christ said: 'Ye shall know the truth, and the truth shall make you free'—free from fear, limitation, hate, envy, malice, discord, sin, sickness and death. It is with a sincere desire to present this truth, to set aright misunderstanding, and answer criticism, that the Christian Science Society of Mesa has invited you to be present this evening to listen to authoritative statements concerning Christian Science. I deem it an honor to introduce Professor Hermann S. Hering, of S. B. of Concord, New Hampshire, Member of the

evening's bill of movies at the opera house, "His Fairy Godmother," is a Vitaphone comedy and another comedy is "The Teming of Mustang Pete."

PHILANTHROPIC DAY

Plans for Philanthropic Day on Thursday of this week are going steadily forward and a large donation to charity is anticipated. The ladies have made arrangements for the normal Y. W. C. A. girls to serve refreshments following the program to be given in Old Fellows hall in the evening and the receipts of which will be turned into the philanthropic fund. The ladies call particular attention to the fact that clothing, especially shoes, for children between the ages of six and twelve are needed. All donations may be made at hall on Thursday evening and the distributing committee will see that the proper attention is given them.

STOCK TO BISBEE

A. N. Porter on Sunday evening shipped two carloads of fat beef stock to Bisbee for use in the Torrey market. Bill Curtis, who has been in the valley for several weeks, accompanied the shipment.

Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, of Boston, Massachusetts.

Mr. Hering is a speaker of splendid presence and decided oratorical attainment and held the entire assembly attentive to his every word during the hour and a quarter he addressed them. In part he said:

Christ Jesus, the great physician, the divine healer, has for all time set the standard of perfect healing before humanity, and that many did not yet believe in his gospel results from a lack of understanding of the true nature and philosophy of the so-called miracles which he performed.

The fact that Christian Science heads can readily be determined by any sincere investigator, and the supposition of spiritual healing, thus proving this healing to be true and possible today and establishing the fact that Christian Science is Messianic.

According to the Scriptural accounts, the healing brought by the Master and his disciples, was accomplished through mental or spiritual means alone, thus through some action of thought. Christian Science healing is brought about in the same way in both, the healing Principle and law are mental, and we are thus led to examine into the nature of Mind and mind action.

Christian Science teaches that Mind is that which thinks, that which expresses itself in ideas, intelligence, consciousness. This is the basis of all manifestation, the Principle and intelligence of the universe.

This divine actuality is the scientific basis on which all Christian healing is demonstrated, the divine Principle whose mighty power is utilized in the overcoming of sin and sickness.

Christian Science shows that the so-called mind which includes the belief in evil, matter and disease, is not real Mind but a false concept of mind, that Adam dreamt, which St. Paul terms, "the carnal mind which is enmity against God." In other words, God's unlikeness or opposite.

This then is one of the initial and essential steps in the Science of Christian healing—the recognition of the unreality of all that which is unlike God, that it has but a seeming and not an actual existence.

The order of scientific Christian healing therefore is expressed first, in the knowing of perfect God and perfect man, followed by the recognition of the erroneous nature of disease, sin and all that is unlike God; then in the application of absolute truth to the elimination of error, so that right, harmonious conditions may be established.

The love and gratitude which Christian Scientists feel toward Mrs. Eddy is not to be wondered at when one takes into account the great good to be given to the world by her teachings, which has come into their lives as the result of her teachings.

The whole world is indebted to her for her Scientific and spiritual interpretation of the Bible, especially the words and works of the Master, and for her demonstration of the truth of his teachings. In the face of the so-called higher criticism and the doubt respecting the correctness of much Scripture teaching and the possibility of obeying Christ Jesus' commands, Mrs. Eddy's proof that the Bible is true stands out as the greatest, most significant achievement of this age, for hereby the truth of Christianity and the righteousness of its basis is scientifically established.

In its inspired pages she found

AFTER LONG ILLNESS MRS. YAEGER DIES

She Suffered Final Collapse at Sanitarium in Pasadena

Word was received here yesterday of the death of Mrs. Henry Yaeger, which occurred in Pasadena Sunday evening. Mrs. Yaeger, who has been in ill health for several months, suffered a collapse in the afternoon and passed away a few hours later at Bishop's Sanitarium. Harlow Yaeger, a son who resides in Flagstaff, left yesterday morning for the coast and will bring the remains to Phoenix, where the funeral will be held.

The Yaeger family came here many years ago from St. Louis. They have lived both in this valley and in the northern part of the state, where they have been equally prominent in social and church circles. Mrs. Yaeger was especially beloved by all who knew her, her sweet, endearing manner and kindly deeds winning her many sincere friends.

Besides her husband, who is at present in Glendale, Mrs. Yaeger is survived by a daughter, Mrs. Percy Cowan of Vicksburg, Miss., and four sons, Harlow Yaeger of Flagstaff, Benjamin Yaeger of Glendale, Gilbert Yaeger of Helena, Arkansas; Irving Yaeger of Littlefield, Missouri.

Funeral services will be held in the First Methodist church Thursday at 2 o'clock p. m.; interment in Greenwood.

HALL IS TESTED FOR BIG CONCERT

Woman's Club to Be Scene of Symphony Orchestra Concert Thursday

The Phoenix Symphony Orchestra concert which occurs Thursday afternoon promises to be held in several ways. First, it is the first orchestral concert that has ever taken place in the Woman's Club hall in Phoenix. A committee of instrumental musicians tested the acoustics of this small but correctly modeled auditorium yesterday, and pronounced them ideal in every respect for varieties of tone color, being perfectly devoid of "echo" yet sustaining reverberation in such a manner as not to produce the "dead" effect.

Another novelty comes in the form of a "surprise for the natives," for every note to be played on the entire program is from the pen of the young local composer, Eugene Redewill. Mr. Redewill has amassed his orchestral compositions for years without giving them a complete hearing, and upon this occasion, through the persuasion of those who knew the character of his works, he agreed to contribute an entire program. After a rehearsal yesterday the musicians were loud in their praise of the selections.

Eugene Redewill has won the attention of the musical world by several of his compositions, the better known of which are "Grand Canyon of Arizona," "Waltzes" and "Tribute Overture." These together with seven other numbers including operatic, instrumental and semi-classic variety, two distinct novelties and a violin solo with orchestra will constitute the composer's afternoon program.

Tickets are now on sale at the central drug stores and a splendid house is assured for the performance. Christian Science, the spiritual fulfillment of Jesus' teachings and practice

and she thus re-discovered the Science of Christianity.

Christian Science is the renaissance of Christianity, the re-birth and re-establishment on a scientific, demonstrable basis, of the Christianity which Christ Jesus taught and practiced. It is the fulfillment of his mission of bringing to the world salvation from sin, sickness and death. Its modest achievements of today prove the truth of its Principle and rule and enable any sincere seeker to begin to live it. It is a clarion call to every aspiring heart, to awaken to the present privilege of freedom and spiritual authority over human ills, and to demonstrate that the day of human redemption is at hand.

HOW far have you ridden? Get a cyclometer and know. Monrad's Bicycle Shop, Mesa.—Adv.

GRINER GOES OVER TO TOGGERY

It is announced that Floyd Griner, who has been connected with the O. S. Stapley Co., Inc. for several years, has resigned his position with that company to take charge of the hardware department of the Toggery, beginning January 1. The Toggery is to be congratulated on obtaining the services of a cracking good hardware salesman and one who knows that line from "A" to "Z."

COMMERCIAL CLUB MEETING

There will be an important meeting of the Mesa Commercial club tonight at 7:30 p. m., sharp, at the rooms of the club. There are several important matters to come up, particularly arrangements for the big banquet to be held in the high school on the night of the 11th of January. Every member is asked to attend tonight's meeting.

"SEEM TO BE JUST AS MANY PEOPLE HERE AFTER CHRISTMAS AS BEFORE"

said some one of a group of women passing out of the elevator—and the other person said—

"WELL, WHY SHOULD IT BE SO?"

Isn't it always sunny in this store, and are not the people who wait on you always polite, ready and anxious to make everybody happy to bring them back again?

We Have Never Seen Such an Enthusiastic Crowd of Women

And the Surprise Was Great

The big newsy ad that appeared in the Sunday paper brought thousands of eager purchasers.

THE TRUTHFUL TALE TOLD proved an interesting one to most of our patrons.

The genuine bargains offered in Women's Suits, Coats, Dresses and Waists were here—just as advertised—and many that were not advertised.

The first day's sale proved to be the greatest of any of our former sales of Ready-to-Wear

Ask your friend or neighbor about the bargains—

Question after question—"How can they sell this kind at such low price?"—"Have you ever seen such handsome coats at \$8.35?"—"And, look at this dress! I know that I have to get one today." Yes, indeed, hundreds of comments were heard here today. Of course, it's an unusual event.

Most of the Coats and Suits were Bought Recently by Our New York Representative at Greatly Sacrificed Prices

We are constantly in touch with the market—through our New York office. We are purchasing quantities at low prices—all for the benefit of patrons.

If you have not visited us yet—come today—Take advantage of this unusual money saving event.

S. P. IN BAD WITH STATE COMMISSION

Must Answer Contempt Charge Before Corporation Commission

Officials of the Southern Pacific Railroad company were yesterday cited to appear before the state corporation commission and explain why they should not be held in contempt of that body owing to their failure to comply with a recent order of the commission directing them to file certain information which was desired.

The trouble had its inception several weeks ago, when the commission asked the Espae to submit a detailed schedule of tariffs in connection with the recent movement of the Al G. Barnes Express company over the lines of that road and the Arizona Eastern line. The commission had received information that there was an illegal contract made between the road and the show people in regard to rates of transportation for the cars of the circus, and they requested the S. P. to bring in the records of the transaction in order that the commission might insure into the truth of the reports.

The company was given until Dec-

ember 29 in which to comply with the commission's order, and when that date arrived last week, the tariffs of the road were not forthcoming, so the matter was turned over to Attorney General Jones for action.

The attorney general's citation calls for the appearance of the road officials before the commission on Monday, January 19, 1916, at which time they are to explain their refusal to submit the required data.

SANTA SEES FOUR AT LAND OFFICE

Quartet of Clerks Get Boost in Salaries as Result of Good Work—Mark of Efficiency

Christmas joy was brought to four of the efficient clerks of the United States land office in the form of substantial raises in salary, notice of which was received from Washington yesterday. Receiver J. J. Birdno in announcing the news to the force added that the raises were allowed not only because it was the Christmas season, but because they were earned.

The land office force is one of the most efficient organizations of its kind in the service, a fact which brought forth praise from Commissioner Clay Tallman on the occasion of a recent visit here. But three of the clerks of the land office now fall below the maximum salaries for their positions, and these will undoubtedly be raised within the next year.

The clerks so rewarded yesterday

were Walter A. Wilson, Roy C. Herald, Misses Helen R. Pepper and Josephine K. Stewart.

BIG TRACT OPENED TO THE SQUATTERS

Land Held for Yuma Project 30 Miles by 6. Opened—No Entries Until Surveyed

Official notification of throwing open a tract about six miles by thirty along the Colorado river in Mohave county, was received at the United States land office yesterday. The land is as yet unsurveyed, so it is open only for squatters. Until surveyed, no filings will be permitted on it.

The land, which runs in a strip, approximately six miles wide and thirty long, was withdrawn in connection with the Colorado river irrigation project, bound to be of no use for that purpose, and, with yesterday's notice, restored to the public domain. The tract is founded on the south by the south line of township 23 and on the north by the south line of township 28.

CONFERENCE AT COPENHAGEN

[Republican A. P. Leased Wire]
LONDON, Dec. 27.—A dispatch to the Exchange Telegraph Company from Copenhagen says that the members of the Ford peace expedition have decided to make Copenhagen their headquarters. Instead of The Hague, as previously announced.
